DETAILED ACTION

Newly submitted claims 70-113 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: "updating software installed on a user station, the software including multiple software entities which facilitates obtaining updates from a remote source via a communication network including the Internet, checking for availability of an updated – wherein the updating software entity can be running in the background at the user station while at least one of the other software entities is running in the foreground at the user station; if update available notify a user and request confirmation from the user to obtain the update; and obtain update from the remote source via the communication network.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 70-113 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment filed on 05/19/04 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because please refer to the above paragraph(s).

Art Unit: 2182

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
